

ezBooking+

Reduce phone calls and hold time for new and existing patients

- Provides 24/7 scheduling convenience
- Empowers new and existing patients to easily check availability & schedule appointments with their provider of choice.
- Permits existing patients to schedule appointments without a portal login or access.
- Supports both In-Person & Telemedicine appointment scheduling

Fully automated & integrated to work with athenaPractice™, athenaFlow™, athenaOne™ & other PM/EMRs

- Easily add to existing website or mobile app to convert online searches into new visits.
- Increases efficiency with automated appointment request approval and eligibility verification.
- Supports complex business logic requirements.
- Allows external physicians to quickly and easily schedule appointments.
- Facilitates fast & easy implementation for the practice.
