

Increase revenue & improve patient care by implementing RPM and CCM programs.

- Collect vitals/medical data from patients automatically and securely.
- Monitor blood pressure, blood glucose, blood oxygen, temperature, weight, and movement activity.
- Collected data is automatically updated to patient's chart in real-time.
- Alerts for abnormal results are auto-generated and sent via email, flag and text instantly.

Fully automated & integrated to work with athenaPractice™, athenaFlow™, athenaOne™ & other PM/EMRs

HIPAA secure

Easily add new revenue streams for the practice while providing greater convenience for your patients.

Use 99453, 99454, 99457, 99458, 99473, 99474 and 99091 codes for easy billing and reimbursements
